### **DETAILED ACTION**

# Claim Rejections - 35 USC § 103

- 1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
  - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 2. Claim 18-20 and 23-25 are rejected under 35 U.S.C. 103(a) as being unpatentable over Murphy (US 5,038,467) in view of Cushman (US 4,627,161).

Murphy discloses in Figs. 13-13a and 14-14a show electrical connections between the elongate contacts of an IC and the conductive recesses are established and maintained substantially entirely due to the pressing. Col. 5, lines 33-40 discloses pull-out force.

Murphy fails to disclose spring contacts.

Cushman discloses spring contacts.

It would have been obvious to one of ordinary skill in the art at the time the invention was made to modify Murphy by providing spring contacts, as taught by Cushman, for the purpose of easily aligning with the conductive recesses without breaking.

3. Claims 21-22 are rejected under 35 U.S.C. 103(a) as being unpatentable over Murphy (US 5,038,467)/Cushman (US 4,627,161) as applied to claims 18-20 and 23-25 above, and further in view of Feldberg (US 4,533,199) and Murakami (US 6,449,838).

Murphy/Cushman fail to disclose providing U- or trapezoidal shaped recesses.

Feldberg and Murakami discloses U- (Fig. 1) or trapezoidal (117) shaped recesses, respectively.

Art Unit: 3729

It would have been obvious to one of ordinary skill in the art at the time the invention was made to modify Cushman/Wakamiya by providing U- or trapezoidal shaped recesses, as taught by Feldberg, man and Murakami, for the purpose of better coupling with the substrate.

## Response to Arguments

4. Applicant's arguments with respect to claims 18-25 have been considered but are moot in view of the new ground(s) of rejection.

# Interviews After Final

5. Applicant note that an interview after a final rejection must be submitted briefly in writing the intended purpose and content of the interview (the agenda of the interview must be in writing). Upon review of the agenda, the Examiner may grant the interview if the examiner is convinced that disposal or clarification for appeal may be accomplished with only nominal further consideration. Interviews merely to restate arguments of record or to discuss new limitations will be denied. See MPEP 714.13 and 713.09.

#### Conclusion

6. Please provide reference numerals (either in parentheses next to the claimed limitation or in a table format with one column listing the claimed limitation and another column listing corresponding reference numerals in the remark section of the response to the Office Action) to all the claimed limitations as well as support in the disclosure for better clarity (optional). Applicants are duly reminded that a full and proper response to this Office Action that includes any amendment to the claims and specification of the application as originally filed requires that the applicant point out the support for any

Art Unit: 3729

amendment made to the disclosure, including the claims. See 37 CFR 1.111 and MPEP 2163.06.

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Rick K. Chang whose telephone number is (703) 308-4784. The examiner can normally be reached on 5:30 AM to 1:30 PM, Monday through Thursday.

The fax phone numbers for the organization where this application or proceeding is assigned are (703) 872-9302 for regular communications and (703) 872-9303 for After Final communications.
